& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

**Accelerate
business
transformation
with BPM**

Accelerate business transformation with BPM

Topics covered

- What is BPM (Business Process Management)?
- Streamline Processes and Identifying Inefficiencies
- Aligning with Digital Transformation Goals
- Driving Innovation and Continuous Improvement
- A Traditional BPM Project: Auditing, Modeling, Monitoring

Workshop: Introducing the outlines of a Traditional BPM Project

**BPM
CONSULTING
& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

**BPMN
Modeling: core
to any BPM
Project**

BPMN Modeling: core to any BPM Project

Topics covered

- What is BPMN (Business Process Model & Notation)?
- A BPMN model, core to any BPM Project
- Major points of the BPMN language
- Automatic generation of BPM models with IA: using IA to convert textual process descriptions into BPMN models

Workshops:

- * How to model a process in BPMN language in a modeling tool
- * Demo of Automatic generation of a BPMN model

**BPM
CONSULTING
& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

ERP & BPM

ERP & BPM

Topics covered

- ERP (Enterprise Resources Planning): a core software for any company
- How BPM helps a good ERP implementation
- How to get insights of the current state of ERP processes
- How to reduce risk of unwanted business impact from outdated processes
- Intelligent ERP and Intelligent BPM: how they work together

Workshop: Identify weaknesses in your ERP-related processes: case walkthrough + modeling

**BPM
CONSULTING
& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

Data-Driven BPM: Process Mining

Data-Driven BPM: Process Mining

Topics covered

- What is Process Mining?
- Process Mining: the other way around to a BPM Traditional way of doing things
- Process Mining and significant savings in a process
- Process Mining and the delivering of a BPMN model

Workshop: demo of a Process Mining Project

**BPM
CONSULTING
& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

**Accelerate
business
transformation
with BPM
Automation**

Accelerate business transformation with BPM Automation

Topics covered

- What means BPM Automation?
- The multiple benefits of BPM Automation
- RPA (Robotic Process Automation): a specific way to automate users tasks
- Link between BPM automation and RPA
- Process Automation with AI

Workshop: demo of a Process Automation with AI, how BPM can be integrated with RPA and AI to improve process execution

**BPM
CONSULTING
& TRAINING**

Intelligent Process Management for the Age of Artificial Intelligence

**Accelerate
business
transformation
with generative
AI**

Accelerate business transformation with generative AI

Topics covered

- AI-assisted process recommender
- AI-assisted process analyzer
- AI-assisted performance indicators recommender

Workshop: From prompt to process: generating and refining a BPM model from a textual description.

The end
